

MRS. ROSARIO ARGONZA ORDIZ, SENIOR NURSE SUPERVISOR  
DEPARTMENT OF HEALTH - MANILA

The above - mentioned employee engaged in the buy and sell business during the Japanese administration. Taking advantage of her position as Senior Nurse Supervisor and Property Officer during the Jap regime, she purchased medicines in big quantities from Nakashima, Japanese dealer in drugs, paying thereby the money of the government entrusted to her care as cash advance. The said purchases were made to appear as if they were for the Government of the City of Manila, but when the medicines were delivered, her husband, Mr. Ordiz, who was engaged in the buy and sell business during the Japanese administration, sold them at the black market at exorbitant prices. As a result the couple accumulated wealth and in fact, they were able to buy real estate property somewhere in Juan Luna, Tondo.

During the Japanese administration, prime commodities were being sold to the employees of the government. Mrs. Ordiz and Dr. Belmonte were the ones in charge thereof. Many employees of the Department of Health were not able to buy their share of the prime commodities because they (Mrs. Ordiz and Dr. Belmonte) appropriated them for their own use. In fact, as a result thereof, there arose a quarrel between two employees of the said Department named Dr. Apolonio del Rosario, c/o Department of Health, City of Manila, and Atty. Perez.

The following persons who are aware of the activities of Dr. Belmonte and Mrs. Rosario Ordiz during the Japanese Administration may be cited:

Dr. Apolonio del Rosario, Conchu, Singalang Subdivision now working in the Dept. of Health, City of Manila.  
Dr. Edgardo Javier, 1353 San Andres corner Dart. Paco.  
Mr. Gelacio Salas, c/o Dept. of Health, City of Manila.  
Dr. Macaraig San Agustin, F. B. Harrison, near Robert St.  
Miss L. M. Cruz, Lieutenant of the Philippine Army NRC.  
Miss Josefina Tombo, Cataluna, Sampaloc c/o Mrs. J. Lara.  
(nee Estrella Tombo)  
Mrs. Antonio Murin, Isabel St. Sampaloc near Jocson St.  
in front of Mr. Infantado's house.

Judging from the past activities of the above-named employees which show in an unequivocal and unmistakable way their true colors as Japanese collaborators, I am wondering why they are still retained in the service of the U.S. Government, when they are supposed to be enemies of said government.
